

JS-150 Loudspeaker Stand

Spec Sheet

Product Overview

The JS-150 was designed to support extra-large JBL Classic Series and Studio Monitor loudspeakers. Featuring metal construction, this stand places the speaker at the proper listening height as well as provides a 7° angle to aim the speaker towards the listeners ears. The JS-150 shares the same dimensions as the JS-120 with added bracing to support extra-large loudspeakers.

Highlights

- Heavy Duty version of the JS-120 for Extra Large Classic and Studio Monitor Loudspeakers
- Places speaker at proper listening height and provides 7° Angle to aim the speaker towards the listeners ears
- Metal construction with black finish
- Includes 4x Rubber Tipped Adjustable Height Feet
- Packed and sold in pairs
